Dear Mr Dodge:

Thank you for contacting the Ohio Turnpike and for sharing your testimony at the public hearing in Youngstown. It was a pleasure to meet you. Your comments regarding toll rates for motorcycles was informative and I appreciated your experienced perspective. After discussing various options, both internally and with our vendor, it was determined the system cannot be modified at this time because our toll system is only able to calculate toll rates based on the number of axles. Please know your comments have prompted us to research how other tolling agencies determine motorcycle toll rates. Once the new Toll Collection System is implemented, we plan to revisit this issue to explore solutions to better accommodate motorcycles in our system.
